DETAILED ACTION

Allowable Subject Matter

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US Pat. 6,593,220 – discloses a method that uses elastomer as the masking material for the processing step of electroplating during the processing sequence of creating a solder bump on a semiconductor surface.

2. Claims 1-10 are allowed.

3. The following is an examiner's statement of reason for allowance: the prior art of record, either singularly or in combination, does not disclose or suggest a method for treating a surface of a wafer by forming a photo-sensitive material layer over the surface of the wafer, covering the bumps and the UBM layer; patterning the photo-sensitive material layer by using the bumps as masks to expose the surface of the wafer between the bumps as instantly claimed and in combination with the additionally claimed method steps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
